Sleepless days: post 2050
Post 2050: In space there is a ship, inside that ship with a square shape there are several beings, these beings are talking.

-leader of the meeting: we are all together.

-Leader of the planet Paxes (characteristic Pearl: Pisces): Yes

-Leader of Planet Toron (characteristic pearl: Taurus pearl): What is the reason for this meeting?

-Leader of the meeting: This meeting is to welcome you to a new planet.

-leader of the planet Virginia (characteristic Pearl: Virgo): a new planet will be part of us, I thought we were the most advanced.

-Leader of the meeting: Yes, but the objective of the Galactic Union, not only seeks the most advanced, but also those who have the potential to be like us.

-Leader of the planet Astrid (characteristic pearl: Libra): Yes, it is difficult to think that there is still no planet whose inhabitants have not become extinct.

-Leader of the galactic union: Yes, there are many planets and many of them have become extinct, but that is not the case of this planet, since it has achieved quite an interesting development.

-Leader of the planet lion (characteristic Pearl: Leo): and well, what is that planet, of which you are speaking.

-Leader of the Galactic Union: I won't introduce it, I'll let them introduce themselves.

-Leader of the Galactic Union: Representatives of Earth can come in!!!
3 humanoid beings walk towards where the meeting was taking place.

-...: Hello, I am the representative leader of the land. My name is Amanda.

-Leader of the planet paxes: Amanda? ..You are the Amanda who did the Pisces Pearl Exam, a long time ago?

-Leader of the Galactic Union: Do you know each other?
Amanda: Yes, it's

me. he leader of the Galactic Union said puzzled.

-Leader of the Galactic Union: I don't understand how this is possible.

Leader of the planet Paxes: he will have achieved the same as me, he managed to pass the mastery of pisces, he will have achieved something that almost no one of our race the fairies has achieved..

-Amanda: how do you know I did the exam?

-Leader of the planet Paxes: I know that, because I took the exam with you, I'm Daisy.

Amanda:...

Amanda tries to remember her but this is where someone spoke

-Leader of the Galactic Union: Well, they will be part of us, Apparently Daisy already knew someone from planet earth.

-Daisy: yes

-Leader of the planet toron: I already know humans, in the records of the Taurus pearl examination, there is a human who was granted the Taurus pearl.

-Leader of the Galactic Union: Ehh?

-Amanda: I had several students and I took them to several exams.

-Leader of the Galactic Union: is that true?

-Leader of the planet Astrid: Yes, in fact we have a descendant who took the exam..

Amanda: Apparently Astro, had offspring

-Leader of the Galactic Union: what you are telling me is strange to me

-Leader of the planet Sagittarius (characteristic Pearl: Sagittarius): so the human who is in the registry, was your student?

-Amanda: they were all my students

-Leader of the Galactic Union: Well, then everyone already knew the inhabitants of planet earth, I give...

-Leader of the planet Virginia: No, I just found out about the existence of this planet.

-Leader of the planet Carnio (Feature Pearl: Capricorn): I didn't know planet earth either. Leader of the Galactic Union: Then I'll let them introduce themselves.

While Amanda and the 2 beings introduce themselves, on the other hand a ship approaches this large square ship and enters through a kind of passage that leads to this ship.

This being gets off the ship and begins to walk.

-...: I have to talk to Amanda.

This being walks, meanwhile thinks..

...: I haven't seen Amanda for a long time, I don't know how it impacted her to see me again, the last time was that time she came to look for the sword in which I was, I remember that my brother came back and not only that repeated the same mistake.

This being continues walking, meanwhile in another part of the ship 12 people are still in the meeting

- Leader of the Galactic Union: well Aristan, now you are missing Everyone looked at this being and this being began to speak

-...: My name is... Jeckthrow and I was Aristan's partner, now after so much time I met Amanda again and we decided to represent the earth.

-Leader of the Galactic Union: Hello Jeckthrow, it is a pleasure for us to incorporate a planet like Earth, a planet with great potential.

-Jeckthrow: it is a pleasure to be able to belong to the Galactic Union.

-Leader of the Galactic Union: From now on the earth will be part of us, I hope they can get along with them.

Daisy: Of course we'll get along.

-leader of the Galactic Union: I end this meeting.

The leader of the Galactic Union retires and several leave, leaving the representatives of the earth, Daisy and the representatives of Toron and Astrid.

-Daisy: Amanda I can't believe it, that you're still alive, you mastered the Pisces pearl like me.

-Amanda: yes... I think so.

-Leader of the planet Toron: overcome the mastery of pisces, is that possible? Daisy: Yes, it is very possible.

-Planet leader Astrid: I don't understand how it's possible, how can they overcome it.

-Daisy: The Pisces pearl is possible, but I don't know if you really know what the Pisces pearl does?

-Leader of the planet Toron: It is the pearl of transformation.

-Amanda: Wrong. No, she doesn't do that.

-Daisy: Not everyone on the other planets believes that our pearl has to do with transformation, but it is actually the Pearl of Creation.

-Astrid's leader: The pearl of creation, I never heard someone say that.

-Daisy: Yes, in fact on the planet Paxos we have a famous saying and it says the following: Out of nowhere...

-Amanda: Something is created.

Daisy, upon hearing that Amanda finished her sentence, applauded her quickly and said the following.

-Daisy: Very good, you still remember that.

-Amanda: Yes.

-Leader of Toron: I don't understand.

-Amanda: Unlike the Taurus Pearl, the Pisces Pearl all its training and Exam is not based on something Physical, as the Taurus Pearl is, but something more Metaphysical, the Pisces Pearl Exam is probably, the most difficult of all.

-Toron leader: You can't say that when you didn't take the Exam.

-Amanda: That's true, I didn't take the exam but my student did and I could see how complicated it can be and it doesn't compare.

-Leader Astrid: and with that pearl you can live many years?

-Daisy: That is a mistake, Amanda, you say it or I tell her.

-Amanda: You don't live many years, fairies can be immortal beings with their original Pearl.

-Leader of Toron and Astrid: What?!!

-Daisy: That's right, but hardly anyone gets it. Toron leader: We can't.

-Astrid's leader: yes.

-Daisy: but you can do it, as you have seen, we do not deny anyone access to that pearl, ofcourse they must take the exam hehe

-Amanda: This exam is something that is totally different from what you are used to, because you don't have to interact with anything physical and although the Libra pearl has its non-physical side, it doesn't compare to Pisces.

-Leader of the planet astrid: wow it is so complicated.

Daisy: Yes.

-Amanda: The mental load that obtaining that pearl entails and the frustration that I have experienced in paxes, does not compare to what my Students have experienced on the planets to which I have taken them.

while that conversation was taking place Aristan and Jeckthrow watched everything and Aristan thought of something while they talked.

-Toron leader: I think I don't want to take that exam.

-Astrid's leader: Me neither.

-Toron leader: I will return to Toron.

-Astrid's leader: And I to Astrid.

-Leader of Toron: until the next meeting, new members.

-Astrid's leader: See you later and congratulations on joining the galactic union

-Amanda: Until next time! The toron leader and Astrid's Leader retreat.

-Daisy: See you Amanda! A pleasure to see you again!

-Amanda: See you next time, Daisy!.

Amanda: I still can't remember that Fairy.

Daisy leaves. Amanda turns around and sees Aristan and Jeckthrow watching her and this is where Amanda said.

Amanda: Jecky!! What is it that you are looking at me with that face son?

-Jeckthrow: I already told you not to call me Jecky and I'm not your son!! Amanda laughed an ear to ear laugh and this is where Aristan said

-Aristan: Amanda, could I ask you something?

-Amanda: Yes Aristan, what do you want to ask me?

-Aristan: I'm seeing that you changed a lot and I would like to know why you had that quite noticeable change..

Amanda: Pretty noticeable change..

Amanda thought and looked down a little bit and said..

-Amanda: Ahh you're referring to that, Aristan I didn't know you had feelings for me....

-Aristan: What!!...

-Jeckthrow: Wha!

-Jeckthrow: Don't even think I'll let you get close...!! This is when Jeckthrow covered his mouth because he knew he was going to say something he didn't mean.

-Aristan: Nooo, nooo..

-Amanda: well, I think I could consider you..haha Jeckthrow starts to sweat because and with his mouth covered because he really wants to say something but he refrains.

-Aristan: I'm referring to your change of attitude.. Attitudedd Amanda: ohh...

Jeckthrow takes his hand from his mouth and calms down.

Amanda was going to talk and suddenly a portal appears and a woman comes out and hugs Aristan..Aristan: Erins... what are you doing here?

-Erins: Gracias Aristan, for showing me that I'm not wrong about you.

-Aristan: What... Did you hear everything?Erins in Aristan's arms said

-Erins: Yes!Erins excited and with tears in her eyes saidErins: I love you...

-Aristan:....

Jeckthrow:...

Amanda watched the scene with a smile.

Amanda:...

Amanda was going to speak and Erins saw Amanda and with her Dragon Slayer sword pointed at Amanda she said.

Erins: I don't care who you are...I'll attack you if you try something like that again. Answer what I ask before I regret it.

Amanda: Excuse me...

Amanda looks at Jeckthrow and Erins notices this...

Erins: Because he is looking at him and not at Aristan

-Amanda: I didn't know anything, I'm sorry Encerio...

Jeckthrow: Why are you looking at me old lady...

-Erins: It's okay.

-Amanda: Because I'm no longer on earth and I don't have as many responsibilities as I did before, I focus on myself. Now with the galactic union, I will have similar responsibilities.

-Erins: Galactic Union...What is that?Amanda: The Galactic union is the union between the most developed planets and those with great potential, it is in charge of mediating between planets, that is basically what I did on earth as the empress of magic.

-Erins: The empress of the magic of the Pisces pearl, you were the judge

of the tournaments... No wonder your face was familiar to me.

-Aristan: What are you doing here?

-Erins (loud voice): WHAT ARE YOU DOING HERE?

-Aristan: I received a statement from the galactic union to join Ella, the Empress of Magic and Jeckthrow.

-Erins: ohh it's true, you are also Jeckthrow.

-Jeckthrow: Did you just fall that I'm here??

-Aristan: Erins, now tell me what are you doing here?

-Erins: Since you suddenly disappeared I thought you needed help to come back, I don't think we are being well received in some parts.

-Amanda: That is exactly what we will discuss later in the Galactic Union, human beings not being a recognized species, we do not have access to some places on all the planets. It's a bit complicated, but we can do something for sure.

Erins: I hope so.

-Aristan: Now tell me how did you hear our conversation if you weren't here? Erins here said while she had the sword of her dragon slayer

-Erins: I can hear in the dimensions through my sword.

-Aristan: Now I understand, that sword must come from a very powerful dragon, I thought it only opened portals.

-Erins: It's not a dragon, you're wrong, it's a dragon.

-Aristan: That doesn't matter, the important thing is that you beat her and got that scale.

-Erins: You're wrong again...

-Aristan: What?! Erins: She gave me the scale.

Amanda: funny...

-Aristan: I don't understand how it can be possible.

-Erins: I was surprised too, but this dragon had several abilities, one is

that of listening indimensions, he could also speak through it.

-Aristan: I don't understand anything, explain to me what happened..

-Erins: Several things happened but I went looking for a dragon to get my own scale to makethe sword.

-Aristan: Couldn't you just have bought it?

-Erins: The problem is that the sword I wanted was precisely this one with dimensions andthat dragon was very difficult to find because she can escape easily, she was nowhere. So Iwent and looked for her..

-Aristan: And?

-Erins: After searching a lot, I found some information about that dragon, in a book.

-Amanda: You mean the great book of dragons, which is in Chronos?

-Erins: yes, that same book I read.

-Amanda: It is probably the most complete book as far as dragons are concerned, theperson who wrote it is possible that she has investigated all the dragons.

This book gives a lot of information such as the class, habitat, food, etc.

-Erins: It's true she even had the name of the Dragon. Draira Loira, the dragon ofdimensions.

-Aristan: and what happened when you got that information?

-Erins: look exactly for the dragon that the book said. A grayish dragon with white tints, blueeyes and a head that reminded me of the curved part of an anvil and very marked scalesthat protrude from her body

-Aristan: you found her and...

-Erins: I found her and tried to chase her everywhere until at one point I managed to throwmyself on top of the dragon.

-Aristan: I don't know why that is giving me memories and?Erins: That made the dragon begin to jump through dimensions without stopping, sheopened a portal and opened another one in succession for a long time, then she did thatagain more slowly and tried to get me out, after a while... I told her something and it is herethat he really began to calm down and he was going slower but we still passed dimensionsand well to

summarize he talked to me as I told you and I told him and then we returned to the same point and he handed me the scale.

-Aristan: now I understand everything.

A being walked and walked until he went to where they are and spoke

-...: Amanda!! Everyone heard that Voice and it is Here that Amanda is paralyzed..

Amanda: There's Voice, No...it can't be him Paralyzed, Amanda observes de Jeckthrow's reaction and observed something..

Amanda: R.. surprised face.. Jeckthrow, he's totally surprised.

Amanda began to turn around slowly, meanwhile, Aristan and Erins don't seem to give much importance to this being.

Amanda finished turning around and said

-Amanda: ARCAUREEN!!... IT CAN'T BE

-Jeckthrow: No, it has to be someone else, it can't be him.

-...: Yes, it's me, Arcauren. I understand that you don't understand what's going on but it's me I was sent back.

-Jackthrow: Impossible....

Amanda: I can't believe it, how is he back?

-Jeckthrow:...

-Arcauren: Well, to my surprise, the inhabitants of my father's planet were not extinct.

-Jeckthrow: I thought we were all from Earth.

-Arcauren: you and I are from the land, but my father was not from bestion.

-Amanda: So in bestion there is life? Arcauren: Not much, but there are still

-Amanda: And how come you came back.

-Arcauren: The inhabitants of the planet Bestion, somehow contacted the

gods and since there was no King, they asked some of us to return.

-Amanda: Go on...

-Arcauren: The request was granted by a God Called Poseidon..

Amanda: Poseidon is in the dimension of the gods, he didn't know

-Arcauren: The Original request explicitly said to return to King Uren, but because of what Sauren did, my brother was not allowed to return.

Jeckthrow: What does he have to do with what your brother did?

-Arcauren: I don't understand either, what I know is what they have told me and it is the following: "We have received a statement from the bestion planet for your father to return, unfortunately... he has been denied the possibility of returning" Amanda: But why?

-Arcauren: For not raising Sauren with good values, he is guilty of everything that happened, because he could have raised him better.

-Amanda: But you were raised the same as him or not?

-Arcauren: Yes, we were both raised the same.

-Amanda: So, why were you able to come back?

-Arcauren: Because of my behavior towards humans, Poseidon said that he would make an exception.

-Jeckthrow: The one I wouldn't like to see again is Sauren.

-Arcauren: I understand you, he took a bad path..

Arcauren: I always wanted it not to be like that, unfortunately when he realized it... it was too late for him.

-Amanda: But why did Uren come to earth?

-Arcauren: It's a good question, in the castle of Bestion I found some writings by Uren.

Jeckthrow:...Arcauren: but I will summarize the writings of the Great White Wolf Uren.

Amanda:...

-Arcauren: 4 humanoid beasts came in a ship, this ship landed on a planet which had no name.

Upon landing these 4 beasts got off and observed the place.

-Amanda: Where did the ship come from?

-Arcauren: This ship apparently came from a place, but in the writings of Uren it did not say anything. What he was saying were the Names, which are the following: Uren, Diren, Koren, Veren. These four beasts observed the place and realized that it was uninhabited.

Time passed and both beasts separated and populated the place with beasts, but Uren realized that the beasts they created were not humanoid like them and did not think at all and he realized that at some point they could disappear. .

-Jeckthrow: Disappear in what sense?

-Arcauren: Disappear because they were going to cause a fight between them and they would become extinct, leaving them 4 again. It is something that is mentioned in the writings a lot and Uren was concerned about this and began to look for solutions to this.

-Aristan: And? Erins saw Aristan...

-Arcauren: Uren got along very well with Diren, but he doesn't mention Koren and Veren at this point. The next thing he says is that he talked a lot with Diren and he told him that he saw Koren with quite domineering attitudes.

-Amanda: Dominantes means that he began to conquer territories?

-Arcauren: Yes, at this point in the writings Uren said that his concern was coming true, but he did not imagine that the fights were going to be caused by Koren, this is when Uren and Veren start talking about whether to talk to See or Go directly by Koren.

-Jeckthrow: and what did they decide?

-Arcauren: Apparently the first thing they did is look for the ship in which they arrived and then take it to the castle of Uren, after this they decided to use the castle of Uren as the last point of resistance, since it was the furthest from the castle of Koren. Then, in order not to take risks, they decided to send a flea from Diren to talk to Veren.

-Amanda: and after that? Arcauren: After that the flea that had taken the real size of Diren arrived and spoke, between that talk Veren told him that

he spoke with Koren and he will join him and that they want the castle of Uren, since it is the largest.

-Jeckthrow: I don't understand why he wanted Uren's castle, if he already has one.

-Arcauren: Then comes the answer, for now I continue with the summary of the letter.

-Arcauren: Veren said if he wanted to join and go through the castle of Uren, what he replied is that he would think about it and he withdrew.

Upon hearing those words, he met with Uren again and before he told him what was happening, he told him that he was looking in the old library and found a map of all the planets and it was in a book that had the information of each inhabitant of the planet and said that when he came to an uninhabited planet he was wrong and it was not a good idea and he told him that he was looking to go to an inhabited planet, among them was the earth.

-Jeckthrow: But he left at that moment or did something happen with Koren?

-Arcauren: Don't ask me too many questions, I still haven't answered the previous one, but I'll answer this question now.

-Arcauren: Diren told him that he could talk to Veren and he was going to unite with Koren and they would come and they wanted his castle. Uren interpreted this as a fight for power and that the castle was an excuse to attack it.

The next few pages were basically Uren planning the defense and where they would go, but apparently it was decided that one of the two would go.

The following pages Uren tells that Diren's Castle had been conquered by Veren and that Diren managed to escape.

The next thing he says is that he read the pages of the planet earth and what he read seemed interesting and he saw that they were not aggressive enough beings and that they did not have much power. Here Uren thought that their characteristics could try to improve the Race and he decided to go definitely.

In the following pages he is telling Diren that and this is the end of the writings.

Koren and an army of beasts arrive at his castle after defeating some of Uren's beasts and here they decide that one of them should leave, Uren is the one who goes to the ship heading to earth and Diren stays.

-Arcauren: The story continued when I returned to Bestion, I found humanoid beast beings and they told me the following and that is that Diren and Koren's fight had no winner, they both lost and Koren did not get the castle and they defeated each other, the who survived and passed the time without having any conflict, have evolved and have achieved the humanoid form, apparently what Uren did not know is that they were not going to acquire the humanoid form so fast, those who achieved the humanoid form were able to live for a few long years and the cycle was repeated, the difference is that no humanoid beasts attacked each other, only the baby beasts did so, resulting in the same thing, but from that fight other beasts survived and obtained a humanoid form.

-Jeckthrow: those humanoid beasts, they didn't take any leadership?

-Arcauren: No, they are afraid that the same thing will happen again, so they contacted the gods for Uren to come back, since they read the writings and they know that this will not happen again with him, but what already happened you know, and they gave me the opportunity, I don't have 100% beast genes.

Jeckthrow: What!?

-Amanda: What??...Aren't you a complete beast?...

-Aristan:?

-Arcauren: This is the last part of the story and it is what Uren told me and my brother and it is the following...

Uren left the planet and went to earth, with his humanoid form he met a human and well he had 2 children, unlike the children he had female humanoid beasts that came out at the beginning beast, with this woman, we came out 100% of humanoid start.

-Jeckthrow:...Who are we??...I don't think it's him

-Amanda: Are you... saying that...

-Arcauren: Yes, Sauren and me.

-Jeckthrow: I can't believe what you're saying.

-Amanda: Sauren, the humanoid beast that endangered all of humanity,

was the son of a human.

-Aristan:?

-Erins:?

-Arcauren: Yes, although we were able to be born with the humanoid form from the beginning, our life and development time was exactly the same as that of a beast.

-Jeckthrow: What is the lifetime? Arcauren: The life time of a beast is around 500 years, without battle problems, we must have been around 800 because Uren lived to be 800. I think it's because he was a superior beast.

-Amanda: I still don't understand, how did this happen? Sauren didn't see his breast that was human and he thought differently from humans.

-Arcauren: We had no memories of our mother, we were very young and she left when we were young, she had the life of a normal human.

The problem with Sauren came when our father told us that our mission was to repopulate the planet.

Our father always referred to the planet Bestion, Sauren and I thought he was referring to the planet earth. We both took different paths, but one thing was always clear to us, or at least to me, and that is that Uren was in favor of humans.

Jeckthrow: It's hard to understand..

-Arcauren: I know son, this is very complicated, if you come with me to Bestion, I think that assimilating everything with your own eyes will be very helpful.

Jackthrow:...

-Aristan: But he is not your son, he is an old sailor, with his body.

-Arcauren: No. He is my son.

-Amanda (low tone): oops Jeckthrow with clenched teeth and closed eyes listens to Aristan and immediately speaks.

-Aristan: Jeckthrow tell him you're not his son. Tell him.

This humanoid beast said

-...:Aristan, Sorry but I'm not Jeckthrow, I'm Rounen.

Aristan surprised said

-Aristan: What?

-Amanda: I always knew, but I followed your game and I was even provoking you to talk, I'm glad that this is finally over.

-Aristan: Ha Ha Ha, you're kidding, stop joking.

-Erins: I believe him. Aristan makes a face that he didn't like what Erins said at all.

-Rounen: Aristan, Jeckthrow locked himself in the pearl and didn't want to come out.

-Aristan: That's a lie, recently we were on a trip looking for something.

-Rounen: You talk about the Treasure you invented under the name "The Eye of The Earth", it was quite an interesting adventure, but it was me, not Jeckthrow.

-Aristan: Because, you didn't tell me before... Rounen.

-Rounen: I didn't have a chance to tell you, the truth is that Jeckthrow didn't want to continue showing himself and although at times, after talking to you at the campfire, he didn't come out and in those days I was thinking of telling you, but you weren't well, you missed a certain person you have next to you and I couldn't tell you.

-Erins: Erins hugs Aristan from behind

-Aristan:....

-Rounen:...

Aristan starts talking and says

-Aristan: what will happen to Jeckthrow, if you go to Bestion? he is also there

-Rounen: It doesn't bother me that he comes with me and that he goes out every once in awhile...

-Amanda: I could summon him from the pearl and they can ask him.

-Rounen: encer?

-Amanda: Yes, I can also release it.

Aristan is speechless and he can't believe this whole situation and this is where Erins said

-Erins: Aristan, do you want to talk to him again? After a few minutes in silence he spoke and said Aristan: Yes, invoke it.

-Amanda: Right away... Amanda placed her left hand at the level of the Rounen pearl and suddenly from her hand that had raised the thumb, index and ring fingers and the other two had them closed and immediately a fine violet light went to the pearl and it lit up in that same color and a light began to come out that projects an image.

-...:...

-Aristan: Jeckthrow! this light spoke

-Jeckthrow (Light): Hi Aristan, long time no see.

-Rounen: Hello old man, did you deign to leave the pearl?

-Jeckthrow Luz: You have called me, what is the reason?

-Rounen: The reason is that I will undertake a trip to the original planet and I will stay there, I have no problem that you come with me and you can get out of that pearl, it is the least I can do to help defeat Sauron.

-Jeckthrow Luz: Thanks for the offer, but I'm not interested.

-Aristan: Why no, you'll stay there forever, I tried to do everything to help you and I couldn't, maybe Rounen can help you without paying attention to me

-Jeckthrow Luz: Aristan, there is something you are not understanding, everything has an end.

-Aristan: Not for us, you're the one who doesn't understand this.

-Jeckthrow: Aristan, you know very well that my time has passed, just like yours Erins...

You're just like him... Both of you are out of time

-Erins: what's wrong with wanting to spend as much time as possible with the person I love the most?

-Jeckthrow: It's just that that's not right, we shouldn't have to be immortal beings, our time has passed. Mine, Aristan's and Yours Erins, we are not gods, we are humans.

-Aristan: Jeckthrow, I already reached the powers of a god on earth, now in space I can't do the same, I could find you anywhere you were, go everywhere I wanted and I knew exactly what I could do come to pass and I am not a God, I was human.

Jeckthrow: It's true, you had some impressive powers, but why do you have those powers? You know why someone gave them to you

-Aristan: Eh...No, I haven't found out yet. Jeckthrow: And what are you waiting for?... if you have it, it must be for something and it could be too important, don't you think, anyway, I don't want to know anything else, I already did everything I had to do.

-Aristan: Okay, you can go if you don't want to stay here.

-Jeckthrow Light: Yes.

-Aristan: release him! Amanda: Are you sure?

-Jeckthrow Luz: If you can, please release me.

Amanda: It's ok.

Amanda frees Jeckthrow and he went to the dimension of the gods.

Aristan:...

-Erins: Are you okay? Aristan does not answer, it is here that Rounen spoke

-Rounen: Amanda...

-Amanda: yes son..

-Rounen: do you remember that before I said that Aristan created a treasure.

-Amanda: yes

-Rounen: That treasure was stolen by aliens, do you think it's a provocation?

-Amanda: There are many planets that want to have either the power or natural resources that exist on earth, so most likely yes.

-Rounen: It would be necessary to investigate if those who had that treasure were allied with someone whose purpose is to attack the earth.

-Amanda: yes, I think it would be a good idea, take a look. Now that we're in Galactic Union, I don't think it would make a good impression if something happened that fast.

-Rounen: yes, I think it's time to embark on a trip.

-Amanda: Go son...Rounen: Dad

-Arcauren: You spoke to me son.

-Rounen: Before I go to Bestion, I need to take a trip..

-Arcauren: Well, go, meanwhile I'll try to form an alliance with humans.

Rounen starts talking to Aristan

-Rounen: I know, you're probably not fine, but listen to me.

-Aristan:.....

-Rounen: I know I'm not Jeckthrow, but we could do one last trip before I go to Bestion, I don't know if you heard, but to summarize I think there is a planet that can attack the earth, the idea of the trip is to investigate and find out what is that planet before it's too late... what do you say? Rounen extends his hand to Aristan, Aristan after a while grabbed his hand and said

-Aristan: This is important, after all.

End.
